REPUBLIC OF JING BANG

SUN XUN
JING BANG CITIZENSHIP

Established in 2014, "Jing Bang: A Country Based on Whale" is an independent country founded by the world's first magician. Our country sits on the back of a giant whale, its ephemeral existence derives its name from the temporary emergence of a whale surfacing for air. This new body of work includes paintings, posters, flags and citizenship briefcase, shaping the basis of this country. 'Jing Bang' is governed by a unitary, self-elected, single-party system called 'The Magicians Party'. It does not have an economic or a political infrastructure and relies heavily on the new citizenship fees to generate its sovereign wealth. 'Jing Bang' offers people respite from their home country. There are no restrictions to expression. In fact, the determination of the country's socio-political topography is inherently tied to ideologies of intellectual liberation and creative expression. Registration for citizenship is now open.

For more information, please refer to the citizenship package overleaf.
